

CHIKA IHEJIMBA

Software Engineering Lead & Manager

SUMMARY

A results-driven, customer-focused, articulate and analytical **Lead Software Engineer and Manager** with over 17 years of experience, capable of managing technology projects from concept to completion with remarkable deadline sensitivity.

Skilled in developing business plans, requirements specifications, user documentation, and architectural systems research. Strong analytical skills combined with experience in object oriented programming techniques, requirements documentation, and managing product roadmaps.

EXPERIENCED IN

- Managing all aspects of the Software Development Life Cycle (SDLC), from initial capture of requirements through development, testing, delivery, and enhancement.
- Engineering Web Development and Windows Client/Server Development, all layers, from database to services to user interfaces
- Managing the day-to-day activities of software engineering team within a fast-paced Agile/Scrum environment.
- Building, training, and mentoring high-performing teams in consistently delivering strategic software projects.
- Specifying the technical QA (Quality Assurance) requirements and ensuring the products meet the quality requirements set by the stakeholders.
- Implementing best practices for software construction, planning, operations, and management.
- Multi-Platform Hybrid/Native Mobile App Development (iOS, Android & Windows) and Enterprise Application Development
- Development using .net, AngularJS, asp.net, Bootstrap, C#, ColdFusion, Cordova, CSS3, HTML5, Ionic, Java, JavaScript, jQuery, Node.JS, PhoneGap, PL-SQL and T-SQL with database analysis and design. Integrating web services and social APIs (XML, JSON, REST, OAuth, Facebook, Twitter, Foursquare, Google+, etc.).

EDUCATION

2017 - 2017 **CORE Credential of Readiness**

[HBX | Harvard Business School](#)

HBX CORE (Credential of Readiness) is a 120-150 hour certificate program on the fundamentals of business from Harvard Business School. CORE is comprised of three courses - Business Analytics, Economics for Managers, and Financial Accounting - developed by leading Harvard Business School faculty and delivered in an active learning environment based on the HBS signature case-based learning model.

2015 - 2017 **M.Sc. Software Engineering**

[University of Texas at Dallas](#)

- Courses include Advanced Requirements Engineering, Advanced Software Architecture and Design, Software Testing and Verification, Software Project Planning and Management, Object-Oriented Analysis and Design, Software Quality Assurance and Metrics, Software Maintenance, Evolution, and Re-engineering, Database Design, Real Time Systems, Cloud Computing, Big Data Management and Analytics, and Advanced Software Engineering Project.
- Final Project on Engineering and Development of Indoor Navigation System using Bluetooth low energy beacon.

2006 - 2009 **M.Sc. Information Technology**

[University of Lagos](#)

1999 - 2004 **B.Sc. Computer Science**

[Nnamdi Azikiwe University, Awka](#)

📍 Frisco, Texas
